HONGKONG, SATURDAY, AUGUST 6, 1881.

assured by a high authority that the socalled abolition of flogging in this Colony has been a great achievement in criminal knows how to lay it on a little high-handed. procedure, and that it has exercised most wholesome effect upon the criminal classes. We never did believe that the abolition of flogging for certain offences, and the total abandonment of public flogging for robberies with violence, would have any other effect than that creating an impression on the criminal mind that foreign punishments were becoming lax and feeble. That opinion is likely to receive unpleasant confirmation as time passes on; while the boasted discipline of the Gaol is no calculated to bear out the statements so frequently made as, to the success of the non-flogging policy. Since the THE delivery of the American Mail was abolition of public flogging, the punishments of whipping on the breech have been administered within the walls of the Gool. All this, however, now appears to have been changed. A prisoner of the hardened criminal class may now be guilty of two dozen offences against prison discipline, and never be flogged once; while the endenyours of a false sentimentality to replace the pungent efficacy of the lash with longer sentences have removed the The race from the beginning lay between warning reminder that the cat had not Messrs Grimble and Goodwyn, and after a been wholly disused. lack somewhere which calls for immediate attention. Although the question of flogging has only been rai ed incidentally by Mr Tonnochy during the preliminary investigations relating to the prisoner's recent attack upon that officer, it serves to show the weakness of the law as it stands in dealing with during crimes. a mure absolute necessity to give greater few months ago. power to the Supreme Court Bench to Hog criminals guilty of such aggrevated assoults, then there ever existed to warrang about the alphabetical gumbosts, weaken the powers which the Judges the Pioneer remarks that feven the Supreviously possessed. The dilemma is significant, and suggests unfavourable comments upon the non-flogging policy that has latel been adopted. We have already stated that we think the Magistrate's duty was clear, and that he has performed his part with tact and ability. certain races, the following paragraph

Speaking of flogging as applied to will be of some interest; as indicative of the strong feeling entertained in Jamaica regarding the suppression of predial larceny, i.e., thefts from farm-produce and growing crops by the lazy criminal classes of that Colony. The Attorney General of Hongkong doubtless knows more about the particular conditions of the situation than we can possibly pretend to do; but the cry for the lash there seems to be for the repression of crimes of less magnitude than any for which the same deterrent has been advocated in this Colony. We subjoin from the Pall Mull Gazette of June 29th the following:-

The public catting of thieving negroes in Jamaican market-places, to which we referred some days ago as the new check on the alarming increase of predial larceny in that colony, seems to be growing in favour. To judge from copies of Gall's News Letter, published at Kingston, which came to hand by the last mail, it would seem that the colonists are pressing for more extended application of public flogging to amend what a speaker denounced at a recent public meeting as "an appalling state of things, in which scores of young people are growing up idle and thriftless, preferring stealing to employment." Even public "catting," however, seems to be insufficient to deal with predial larceny, for on the 18th. of May resolutions were passed at a public meeting held in the Court House asking the Government to adopt more stringent measures for the suppression of the evil and one was to the effect that to the nunishment of flogging in public should be added a fine of four or five times the value of the goods stolen. There have been more public floggings at Newport, in the Manchester Mountains. A regulation cat" has been applied for, and the News Letter trusts that not only will the "regulation cat" be supplied, but an officer who

An ominous rumour comes from New York that America would favour a breach of the Opium Treaty with England; and the Government of Pekin, possibly, is preparing for any hostilities that might ensue. The Chinese envoys, who are visiting every part of the world, cannot fail to learn European and American opinion is against us on the opium question; and a little viudictive incitement from our Yankee brethren might make China take decided action in the matter.

With reference to a report we reproduce elsewhere the Pioneer has the following :-

The Executive Enngineer, Buddha Gya Works, in a letter, dated the 4th instant gives a short account of the archeological discoveries made during the year 1880-81 Three sides have been found of the railing set up by King Asoka, round a tomp which he had built on what is now the site of the great temple. Two of the larger temples mentioned by the Chinese pilgrim Hiouen Thrang have been discoverednamely, that in which was an image of Buddha with eyes uplifted, and the other which contained a brazen image of Buddha The first image was made to commemorate the week in which Buddha watched continually the tree of knowledge. The second temple, according to Hiouen Thsang, had originally been built of precious stones by Brahma; but, says the pilgrim, "during the immense interval which separates us from the saint, the precious stones have changed

An unusual accident occurred yesterday to Mr C. Norris, an apothecary in the Government service, at the Pauper Hospital. A doc had been let loose in the Hospital enclosure, and whilst Mr Norris was in the grounds the doe suddenly attacked him. rushing at him and knocking him flat on his back, and afterwards trampling upon and kicking him about the face and body. inflicting a serious wound close to the eye. and many severe bruises. There were persons looking on, who, we are informed, made no attempt to render assistance. The doc was ordered to be shot.

ARCHÆOLOGICAL REMAINS AT BUDDHA GYA.

The Executive Engineer, Buddha Gya Works, has (says the Pioneer, Allahabad) addressed the following letter, dated May, to the Magistrate of Gya:-

In reply to your No. 573 of 28th ulto. have the honour to inform you that I am aware of no new archeological discoveries anywhere within the Gya district during the year 1880-81, except the discoveries at this place in the course of the repairs.

Of these, it is impossible in the course a letter or an ordinary report to give more than the barest outline. I can only briefly President, and it was for the good of the indicate what must form the subject of volume in contemplation. Three sides of Asoka railing which sur-

rounded the tree, viz. on the south, west, and north, were found with the plinth partly intact and several pillars and fragments in Three entrances to the enclosure were also discovered.

Five successive layers of floors were discovered, indicating five well-marked and distinct epochs in the history of the temple. Two of the great and famous temples mentioned by Hwen Thsang on the north and west sides have been discovered, viz. the temple of the uplifted eyes and the temple with brass figure of Buddha

Two of the temples of Avalakiteswara mentioned by Hwen Theang as marking the limits north and south on the east of Vairason, liave also been found, as also one of the stupes of Mara and the stupe of Brahma, and the one of the happy omens. The Suffron stupa has also been discover-

DR. J. COLLIS BROWNE'S

CHLORODYNE

(Ex Army Med. Staff) IS THE ORIGINAL AND ONLY

CAUTION .- Vice-Chancellor Sir W. P. Wood stated that Dr. Collis Browne was undoubtedly the Inventor of Chlorodyne, that the story of the Defendant, Freeman, being the Inventor was deliberately untrue; which he regretted had been sworn Eminent Hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—See Times, July 12, 1864.
The public, therefore, are cautioned

against using any other than DE, J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secre tions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extel its virtues most exten-

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma. UHLORODYNE effectually checks and arrests those too often fatal diseasesdiphtheria, fever, croup, ague. UHLORODYNE acts like a charm in diar-

rhos, and is the only specific in cholera and dysentery. CHLORODYNE effectually cuts short all attacks of epilepsy, hysteria, palpitations CHLORODYNE is the only palliative in

neuralgia, rheumatiem, gout, cancer, tooth-

sche, meningitis, &c.

EXTRACTS FROM MEDICAL OPINIONS. The Right Hon, Earl Russell communicated to the College of Physicians and J. T. Davenport that he had received informstion to the effect that the only remedy of any service in Cholera was Chlorodyna.

See Lancet, Dec. 81, 1864. From A. Montgomery, Esq., late Inspector of Hospitals, Bombay :- "Chlorodyne most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other

remedies had failed." Dr. Lowe, Medical Missionary in India, reports (Decamber 1865) that in nearly every case of Cholers in which Dr. J. Collis BROWNE'S CHLOSODYNE was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera. -" So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

See leading article, Pharmaceutical Journol, August 1, 1869, which states that Dr. . Collis Browne was the inventor of Chlorodyne; that it is always right to use his preparation when Chlorodyne is ordered." CAUTION .- None genuine without the words "Dr. J. Collis Browns" on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

THE CHINA REVIEW. THE widely-expressed regret at the dis-continuance of Notes & Queries on China and Japan, has induced the publishers of this journal to issue a publication similar in object and style, but slightly modified in certain details.

THE CHINA REVIEW, or Notes and Queries on the Far East, is issued at in-

tervals of two months, each number containing about 60 cotavo pages, occasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such

extra matter.

The subscription is fixed at \$6.50 postage paid, per annum, payable by non-residents in Hongkong half-yearly in advance.

The publication includes papers original and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Manners and Customs, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipelego and the "Far East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number. Original contributions in Chinese, Latin, French, German, Spanish, Italian or Portuguese, are admissible. Endeavours are made to present a resumé in each are made to present a resume in each number of the contents of the most recent works bearing on Chinese matters. Great attention is also paid to the Review

department. Notes and Replies are classified together as "Notes" (head references being given, when furnished, to previous Notes or Querles), as are also those queries which though asking for information, furnish new or unpublished details concerning the matter in band. It is desirable to make the Queries proper as brief and as much to the point as possible.

The China Review for July and August, 1875, is at hand. It says that forty-two essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. All our learned societies should subscribe to this scholarly and enterprising Review. It is a sixty paged, bi-monthly, repertory of what scholars are ascertaining about China. The lecture on Chinese Poetry in this volume is slone worth, the price of the Review. Address China Review, Hongkong.—Northern Christian Advocate (U.S.)

Trubner's Oriental Record contains the following notice of the China Review :- " This is the title of a publication, the first number of which has lately reached us from Hongkong, where it has been set on foot as in some respects a continuation of Notes and Queries on China and Japan, the extinction of which useful serial a year or two ago has been much regretted in Europe as well as in China. The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desir-of the foreign-consular services, the Chinese P. Some translations from Chinese novels and plays are marked by both accuracy and freshness | Prince Arthur of style; and an account of the career of the Chinese poet-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was displayed during the lifetime of its predecessor in the field, and that the China Review may receive the support necessary to ingree its continuance. The publication is intended to appear every two months, and will
